Mai Tokiha had just received a scholarship to Fuuka Academy, but will soon learn that the new school is not what it seems. Fuuka Academy is a place where girls are gathered HiME powers, and, Mai is just such a girl. HiMEs are fighting against mysterious creatures from another dimension called Orphans (Drugs) using the special forces (and guns) and their super-special guardian Child (child), quite strong creature. But not everyone in the school aware of the HiMEs, so those who have this power should hide in their normal daily lives. Mai-HiME is a good mix of comedy, romance and drama. Some episodes are completely and totally ridiculous, while others involve them more and more into the picture - what is the purpose of the HiMEs, and their evil Child Orphans? This story incorporates several romantic triangle.
